Event Lighting

Vienna Chandelier™

Crafted from strong yet lightweight die-cast aluminum and featuring intricately detailed decorative arms, our new Vienna Chandelier is sure to bring elegance and style to your lighting inventory. Powered by a white 18 gauge extension cord with four sockets rated individually up to 60 watts. The light kit includes three 8" and one 10" white polycarbonate globes that are virtually unbreakable and emit a warm ambient glow. For the finishing touch we complete each unit with very durable white powder coat that resists scratches and flaking. Measures 28.5" across (excluding globes) and weighs approx. 18 lbs.

"I wanted to thank you for my wonderful experience working with your company. From start to finish I can only compliment you on your service and product. I needed 150 lanterns for a high-profile wedding. You helped me with what I needed and guided me through the entire process. I would highly recommend your company!!"
Scott Levine, President

Lantern Cord System Components

Whether you are looking to drop lanterns from the lace lines of a tent or simply string them between center poles, we offer all the components you need to create the perfect lantern cord!

Individual Components	Product Code
100' Roll SPT2 (10AMP) White Wire	SPT2W100FTW
White Female Quick Plug (12)	SPT2QPFW
White Female "In-Line" Quick Plug (12)	SPT2QPIW
White Male Quick Plug (12)	SPT2QPMW
7" Clear Cable Tie (Bag of 100)	7INCTB100
Intermediate Base Lamp Socket (40W)	216SK-731-2
Clear 40W Bulb (25)	203B40S11N/C
Frosted 40W Bulb (25)	203B40S11N/IF
White Electrical Tape (EA.)	PVCT/WHITE

Installation Suggestions:

Option 1: Create drops by connecting female outlets right onto the main wire. Ideal for variable length drops.

Option 2: Place Intermediate Base Pin Sockets right onto the main wire. Ideal for stringing lanterns between center poles or where varying length drops aren't required.

Event Lighting
