

## Mobile Exit Sign

Our Mobile Exit Sign is fitted with adjustable straps and snap hooks to make installation in tents of all sizes a snap! If the power goes out the exit sign stays lit; the emergency lights turn on and the built-in on/off switch allows you to save battery power when not in use. Other great features include one 7' built-in white extension cord, one replacement faceplate and a 6-Volt, rechargeable battery.

Description	Product Code
Mobile Exit Sign	MEXLT100

Built in Kill-Switch preserves battery power when not in use.

## Protective Stake Caps

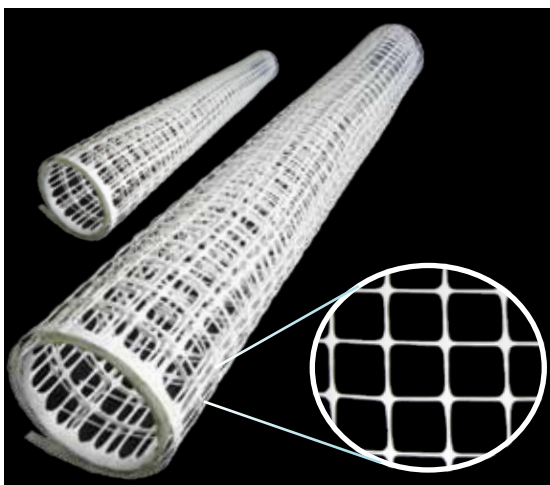

Protective Stake Caps provide added protection from abrasions and blunt force injury making your events much safer for attendees and pedestrians. Use them on rebar or headed stakes up to 2" in diameter. The proprietary flexible inner fin design keeps the cap stable and securely in place during use. Available in white and sold in bulk cases of 100.
