#3 (7/16") Brass Grommets 25PK	#3BG12PK
#4 (1/2") Brass Grommets 25PK	#4BG12PK
#2 (3/8") Brass Grommets 144PCS	#2BG1G
#3 (7/16") Brass Grommets 144PCS	#3BG1G
#4 (1/2") Brass Grommets 144PCS	#4BG1G
#2 (3/8") Grommet Repair Kit	#2GRK
#3 (7/16") Grommet Repair Kit	#3GRK
#4 (1/2") Grommet Repair Kit	#4GRK
#2 (3/8") Spur Grommets 144PCS	#2BG1GSP
#4 (9/16") Spur Grommets 144PCS	#4BG1GSP

Repair Kit intended for field repair applications only.

Description	Product Code
Aluminum Oval Carabiner	OPO6

What is a kN (kilo newton)?

A kilo newton measures the amount of force the carabiner can accept, as opposed to how much mass it can hold in a static situation. In order to convert kilo newtons into pounds-of-force, simply multiply the rating in kN by 224.8 (1kN = 224.8 lbf). Therefore 22kN = 4,945 pounds-of-force.

Metal Rope Snap

This industrial grade metal Rope Snap makes it easier to fasten your guy-line assembly to the tent. Rated for up to 770 lb. working load limit.

Description	Product Code
Metal Rope Snap	MRS770

Aluminum Carabiner

Features

- Aircraft-quality 7000 series aluminum
- Symmetrical design prevents shifting
- Rope bearing surfaces are true radii - no flat spots
- Oval shape is great for multi-purpose use
- CE and UIAA certified

Specifications

- Gate opening: .591"
- Major Axis Strength: 22kN (kilo newton)
- Length: 4.24"
- Width: 2.27"
